

### Description:

Almost all electronic systems in internal-combustion powered vehicles, e.g., anti-lock brakes, direct ignition, airbag control, wiper motors, etc. are susceptible to damage from destructive voltage transients.

Stackpole AVL Series of leaded automotive varistors includes both multilayer and single layer components, defined by  $W_{LD}$  capability. Multilayer devices are intended  $W_{LD}$  applications requiring up to 50 joules of energy, and single layer discs are for  $W_{LD}$  applications requiring above 50 joules of energy.

Automotive multilayer varistors offer excellent transient energy absorption due to improved internal energy distribution. Compared to an equivalent automotive disc varistor, they offer better electrical characteristic in much smaller size. Automotive disc varistors are specifically designed and used in applications requiring higher levels of  $W_{LD}$  energy absorption, which MLV devices are incapable of handling.

### Features:

- AC operating voltage range ( $V_{rms}$ ) from 14V to 40V
- DC operating voltage ( $V_{dc}$ ) from 16V to 56V  
Higher operating voltages are available upon request
- Power supply voltages ( $V_{dc}$ ) 12V, 24V and 42V
- Broad range of current and energy handling capabilities realized with either type of construction
- AVYL high temperature product will have performance characteristics different from the AVL listed here.  
Contact Stackpole for specific details.
- In-line leads on automotive MLV varistors
- MLV varistors: +125°C continuous operating temperature is available upon request (+150°C for AVYL)
- $W_{LD}$  up to 50J
- Available in tape and reel for automatic insertion equipment
- 100% RoHS compliant and lead free without exemption
- Halogen free
- REACH compliant
- AEC-Q200 qualified grade

General Technical Data		
Specification	MLV	SLV
Operating Ambient Temperature for $W_{LD}$ above 50J - AVL	-40°C to +125°C	-40°C to +85°C
Operating Ambient Temperature for $W_{LD}$ above 50J - AVYL	-40°C to +150°C	-40°C to +150°C
Storage Temperature Range for $W_{LD}$ above 50J	-40°C to +85°C	-40°C to +125°C
Threshold Voltage Temperature Coefficient	≤0.05% / °C	
Insulation Resistance	> 1Gohm	
Response Time	< 25ns	
Climatic Category for $W_{LD}$ ≤ 50J - MLV	40/125/56	40/85/56

Higher operating voltages are available upon request.

**Standard Packaging Options / Quantity**

Series	Voltage Range (Vrms)	Model Size	Packaging Options: 7mm, 10mm, 14mm, 20mm and 23mm		
			Bulk	Tape and Reel	Ammo Pack

### RoHS Compliance

Stackpole Electronics has joined the worldwide effort to reduce the amount of lead in electronic components and to meet the various regulatory requirements now prevalent, such as the European Union’s directive regarding “Restrictions on Hazardous Substances” (RoHS 3). As part of this ongoing program, we periodically update this document with the status regarding the availability of our compliant components. All our standard part numbers are compliant to EU Directive 2011/65/EU of the European Parliament as amended by Directive (EU) 2015/863/EU as regards the list of restricted substances.

RoHS Compliance Status						
Standard Product Series	Description	Package / Termination Type	Standard Series RoHS Compliant	Lead-Free Termination Composition	Lead-Free Mfg. Effective Date (Std Product Series)	Lead-Free Effective Date Code (YY/WW)
AVL_AVYL	Automotive Leaded Varistor Straight Leads	Leaded	YES	100% Matte Sn	Jul-05	05/27

### “Conflict Metals” Commitment

We at Stackpole Electronics, Inc. are joined with our industry in opposing the use of metals mined in the “conflict region” of the eastern Democratic Republic of the Congo (DRC) in our products. Recognizing that the supply chain for metals used in the electronics industry is very complex, we work closely with our own suppliers to verify to the extent possible that the materials and products we supply do not contain metals sourced from this conflict region. As such, we are in compliance with the requirements of Dodd-Frank Act regarding Conflict Minerals.

### Compliance to “REACH”

We certify that all passive components supplied by Stackpole Electronics, Inc. are SVHC (Substances of Very High Concern) free and compliant with the requirements of EU Directive 1907/2006/EC, “The Registration, Evaluation, Authorization and Restriction of Chemicals”, otherwise referred to as REACH. Contact us for complete list of REACH Substance Candidate List.

### Environmental Policy

It is the policy of Stackpole Electronics, Inc. (SEI) to protect the environment in all localities in which we operate. We continually strive to improve our effect on the environment. We observe all applicable laws and regulations regarding the protection of our environment and all requests related to the environment to which we have agreed. We are committed to the prevention of all forms of pollution.

## How to Order
