## RSF/RSMF Series from Stackpole Improves Voltage Ratings

**RALEIGH, NC** (December 15, 2014) – Stackpole announces upgrades in the working voltage ratings for the RSF / RSMF Series 3 watt and 5 watt size resistors. The RSF3 working voltage is improved from 400V to 800V, the RSMF3 working voltage is improved from 500V to 600V, and the RSF5 and RSMF5 working voltage is upgraded from 750V to 1000V.

This enhances the series' usability for a wider range of high power and high voltage applications. Those applications include power supplies, electric motor and pump controls, spa controls, climate controls, LED lighting, COTS military applications, video equipment, audio systems, portable electric tools, and medical equipment.

Pricing for the RSF / RSMF ranges from \$0.023 each to \$0.48 each depending on size, tolerance, and resistance value..

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email [marketing@seielect.com](mailto:marketing@seielect.com) or visit the website at [www.seielect.com](http://www.seielect.com).

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
