RPC Series

Pulse Withstanding Resistors are now AEC-Q200 Qualified

RALEIGH, NC (December 1, 2015) - Stackpole's RPC Series of anti-surge chip resistors is now AEC-Q200 qualified for 1% tolerances and wider. Along with providing top notch pulse handling, the AEC qualification provides additional assurance to designers that the RPC Series is able to pass the stringent electrical and environmental requirements set forth by the AEC standard.

This outstanding pulse handling and performance is ideal for a variety of power supply and motor control applications, HVAC controls, LED lighting, communications equipment, and automotive electronics and controls.

Pricing for the RPC series varies with size, resistance value, and tolerance. Contact Stackpole or one of our franchised distributor partners for specific pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group, Stackpole has facilities in Japan, Taiwan, China, the US and Mexico.
