

CSRF0805 and 2512

Sizes Now AEC-Q200 Qualified

RALEIGH, NC (Jul. 8, 2016) – Stackpole Electronics, Inc. recently announced that the 0805 and 2512 package sizes of its CSRF series current sense chip resistors are now qualified to AEC-Q200. The CSRF utilizes a foil on ceramic carrier technology that is impervious to sulfur and offers low resistance values, good TCR, and the ability to achieve small sizes. Foil on ceramic technology also provides robust electrical and environmental performance necessary for passing the rigorous AEC-Q200 battery of tests. Other AEC qualified sizes for the CSRF include the 0402, 0603, and 1206.

Pricing for the CSRF varies with size, value, and tolerance. Contact Stackpole for volume pricing. Many popular sizes and resistance values are in stock through Stackpole directly or through our distribution partners.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the worlds largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
