

ZVY

Multilayer Varistors Offer High Temperature Operation

RALEIGH, NC (Aug. 30, 2016) – The ZVY series of multilayer varistors is capable of operating temperatures of up to 150°C. Most multilayer varistors currently available are only able to operate up to 125°C. This higher temperature range makes the ZVY capable of voltage protection for low voltage electronics in a wider range of environments including industrial electronics and engine controls. Other applications include:

- ASIC inputs
- Controllers
- Medical devices and instrumentation
- Audio circuitry and preamps
- Security systems
- LCD's
- Optics and opto-isolators

Pricing is size and voltage dependent and ranges from \$0.21 to \$0.52 each in full reel quantities. Contact Stackpole or one of our franchised distributor partners for volume pricing.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying to the worlds largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
