

HCC8420

High Current Shunts Handle up to 350 Amps

RALEIGH, NC (Oct. 26, 2016) – Stackpole's HCC8420 is rated at 15W and has a resistance value of 0.1 milliohm. The HCC8420 has a TCR of 100 ppm/°C and can handle currents up to 350 amps in a package size measuring 84mm long by 20mm wide. Custom configurations to the value and sensing tabs may be available. Please contact the factory with your specific requirements. The HCC's high current performance is a good choice for frequency converters, power modules, and battery management for hybrid power sources.

The HCC8420 is AEC-Q200 qualified, 100% lead free, halogen free, and RoHS compliant. Pricing for the HCC8420JBL100 is \$8.00 to \$18.00 each depending on quantity. Contact Stackpole or one of our franchised distributor partners for specific pricing.
