

PRESS RELEASE

RPC Series Offers Lightning Surge Withstanding up to 5.5KV

RALEIGH, NC (Sept. 16, 2013) – The RPC series from Stackpole offers outstanding pulse handling in a thick film chip resistor. In addition to handling much higher pulse power than same sized commodity thick film chip, the RPC is also rated for surge withstanding per IEC 60115-1 up to 5.5KV. This makes the high resistance values of the RPC a good choice for a variety of applications where brief high voltages may damage the power supply or control circuitry.

The RPC is available in sizes from 0603 through 2512, with tolerances as low as 1%. Pricing is size, resistance value, and tolerance dependent and ranges from \$0.031 to \$0.194 each in full reel quantities. Contact Stackpole or one of our franchised distributor partners for volume pricing. Many popular sizes and values are currently in stock.

For more information about Stackpole products, contact Stackpole Electronics, Inc. at 2700 Wycliff Road Suite 410, Raleigh NC 27607; phone 919-850-9500; email marketing@seielect.com; or visit the website at www.seielect.com.

Stackpole Electronics Inc. is a leading global manufacturer of resistors supplying the world's largest OEMs, contract manufacturers and distributors. Headquartered in Raleigh, N.C., the privately held company began manufacturing in 1928 as part of Stackpole Carbon Company in St. Mary's, Pennsylvania. Now part of the Akahane Stackpole Manufacturing Group (ASMG), Stackpole has manufacturing facilities in Japan, Taiwan, China and Mexico; warehousing facilities in El Paso, Shenzhen and Japan; and international sales offices in Tokyo, Taipei, London, Hong Kong and Shenzhen.
